

INFORMATION SECURITY POLICY

We are engaged in the manufacturing and supply of machined components and assemblies to the automotive and non-automotive industries.

We are committed to protect the confidentiality, integrity, and availability of information assets, including customer information, intellectual property, business information, and information processing facilities. We shall comply with all applicable legal, regulatory, and contractual requirements while maintaining the trust of our customers, partners, employees, and other interested parties.

To achieve this commitment, we shall:

- Protect information assets against unauthorized access, use, disclosure, modification, disruption, loss, or destruction.
- Identify, assess, and treat information security risks using a risk-based approach.
- Protect customer confidential information, intellectual property, prototype information and prototype components from unauthorized access or disclosure.
- Maintain business continuity and information availability through appropriate contingency and recovery arrangements.
- Provide the necessary resources to establish, implement, maintain, and continually improve the effectiveness of the Information Security Management System (ISMS).

Mr. Shantanu Mahabal
Director
